

Polycom® SoundPoint® Pro SE-225

Corporate-quality conferencing from your desktop

Highlights

Acoustic Clarity Technology – Allows simultaneous natural conversation – the industry's best full duplex

360-degree room coverage – Two microphones provide 360-degree room coverage for offices

All-in-one conferencing – Easily switch between speakerphone, headset, and handset modes

Based on proven technology – Utilizes the same industry-leading conferencing technology that has made Polycom SoundStation® conference phones the top choice of corporations worldwide

Easy-to-install and use – Plugs directly into power outlet and standard analog telephone jack

Full-featured 2 line business phone

SoundPoint Pro SE-225 seamlessly integrates handset and headset telephone functionality with crystal clear, hands-free voice conferencing in an elegant personal business phone.

With the touch of a button, SoundPoint Pro lets you hold clear, multipoint conference calls with up to two additional participants. Polycom's Acoustic Clarity Technology enables callers to speak when they want, without the clipped sentences and one-way conversations that are common with ordinary business speakerphones. The SoundPoint Pro has versatile features like a front-facing microphone for individual use and a rear microphone for dual-mic, 360-degree coverage in group conferencing situations. Plus, you can connect an optional headset for high-quality, hands-free applications.

In a home or corporate office, speak naturally without wires and get more done efficiently and productively with SoundPoint Pro SE-225.
